.chocolate box. There is a "collection girl" for every 3.00 spent. Also there are levels. The more you collect the girls, the higher the level. The boxes also come in different colors. There are 15 types of collection girls, and by collecting them all, you get the 15th one, "bonus girl". So you really have to find a way to collect the 15 collection girls without forgetting any. They unlock at different time intervals (from 10 to 14 days). The collection game is online, so you get a new collection girl every day. If you do not have a good memory, it can take some time to get them all. On the 5th level, one of the girls will give you a "magic potion" (for 10.00 spent). It will clear all collection girls and will unlock the 15th collection girl, and you will get her as a "bonus girl". Also, if you beat the game, you can trade the collection girls in the eShop for the other collection girls. Bugs When you first play the game, the collection girls will not appear. After you start collecting, they will appear. The collection girl list can sometimes get out of order when you have your collection girl list closed. The collection girls will not unlock if you use up your collection points. The extra collection girls will not appear when you trade. If you are at the 15th level, and use the magic potion, the next level unlocks at the same time as the 15th level. A novel, widely distributed autoantigen in the rat pancreas, p155/140-recognizing protein (p140R) was identified by using an ELISA method. Immunoprecipitation and immunoblotting analysis using rat pancreas extract showed that p140R is present in the rat pancreatic islets.
